SUMMARY

- Frontend Developer with hands-on experience in HTML, CSS, Javascript, and React.
- Excels in providing an innovative point of view and problem-solving approach.
- I pay close attention to details, making sure my projects are clean, accurate, and easy to use.
- A dedicated and enthusiastic individual with strong abilities in both team collaboration and independent work.

EDUCATION

Federal University Of Lafia – Nasarawa, Nigeria   **September 2018 – December 2022**
BSC, Political Science

PROJECTS

Weather Dashboard

Vite + React and Tailwind css

- A responsive weather dashboard that allows users to search for current weather conditions in various cities using the OpenWeatherMap API.

Task Manager

HTML, CSS, and Javascript

- A simple to-do list app that helps users track their daily activities. It includes a built-in calendar to show the current date and lets users easily add or delete tasks.

Recipe Sharing Platform

Vite + React and Tailwind css

- A user-friendly app that helps people discover recipes shared by the community. It also lets users add their own recipes to share with others.

EXTRAS

Certifications

- Front-End Developer Certificate with ALX Africa.
- Professional Foundation Certificate with ALX Africa.
- AI for Developers Certificate with ALX Africa.
